

Invitation to participate in  
**EOR/EGR Workshop**

**3<sup>rd</sup> & 4<sup>th</sup> of February 2009**  
**University of Zagreb, Croatia**

**“The use of CO<sub>2</sub> for EOR/EGR”**

As part of the ECCO project it is our pleasure to invite you to the EOR/EGR workshop at the University of Zagreb – Faculty of Mining, Geology and Petroleum Engineering.

The use of CO<sub>2</sub> for EOR and EGR has potential for improving the economy of a CO<sub>2</sub> value chain. Although the storage potential of CO<sub>2</sub> in petroleum reservoirs is limited, it could be a kick-start of an initial CO<sub>2</sub> infrastructure by helping to justify capital expenditures and by reducing the total cost.

It is the aim of this workshop to exchange experience gained from on-shore EOR projects in the Central and Eastern Europe, as well as from off-shore operation of oil and gas fields and CO<sub>2</sub> storage in the North Sea.

We hope to see many participants from ECCO, CO<sub>2</sub>NET east and CO<sub>2</sub>GeoNET with experience and interest in the use of CO<sub>2</sub> for EOR/EGR, and encourage you to present your knowledge at the workshop. We intend to make the workshop informal and hope you will put forward all the critical questions to expose the advantages and limitations of the method.

If you are interested to give a presentation at the workshop, please submit a title to [kla@geus.dk](mailto:kla@geus.dk) before 2009-01-16. An agenda for the workshop will be distributed shortly after this date. Presentations will be 20 minutes including 5 minutes for questions. If you need more time, let us know.

We look forward to see you in Zagreb.

On behalf of the ECCO SP1 planning committee

**Karen Lyng Anthonsen**  
GEUS, Geological survey of Denmark and Greenland

&

**Bruno Saffic**  
University of Zagreb, Faculty of Mining, Geology and Petroleum Engineering

## Practical information

### Registration:

Send an email with name and affiliation to [kla@geus.dk](mailto:kla@geus.dk) and if you are interested to give a presentation as well, please add a title.

### Venue:

Faculty of Mining, Geology and Petroleum Engineering, Pierottijeva 6, Zagreb  
(Map enclosed – in the immediate vicinity of the Hotel Westin).  
Lecture hall P6 002 (ground floor).

### Planning committee:

#### **Karen Lyng Anthonsen**

#### **Geologist, ECCO – Leader of Dissemination & Training (SP1)**

## ECCO – European Value Chain for CO<sub>2</sub>

### EOR/EGR Workshop The use of CO<sub>2</sub> in EOR/EGR

Key areas  
Central Eastern Europe and the North Sea

Zagreb February 2009

#### Agenda (preliminary)

Tuesday 3<sup>rd</sup> February 2008

8:00 -12:30	Field trip to Ivanic and Zutica CO <sub>2</sub> injection sites*
12:30- 13:00	Refreshments
13:00-13:10	<b>Welcome – prof. Bruno Saftic, University of Zagreb</b>
13:10-14:30	Presentation of EOR/EGR in Croatia (INA)
14:30-15:00	Coffee/tea break
15:00-16:30	Presentation of EOR/EGR in Hungary (MOL)

19:00 Workshop dinner (location and arrangements to be decided later)

Wednesday 4<sup>th</sup> February 2008

9:00-10:30	Presentations
10:30-11:00	Coffee/tea break
11:00-12:30	Presentations
12:30-13:30	Refreshments
13:30-15:00	Presentations
15:00-15:30	Coffee/tea break
15:30-16:30	The advantages and limitations of using CO <sub>2</sub> for EOR/EGR. This session will sum up information from the presentations and with help from all participants we will draw up a list of statements regarding use of CO <sub>2</sub> for EOR/EGR.

\* It is possible to have the field trip at the end of the workshop. In that case, presentation will start 9:00 on Tuesday the 3<sup>rd</sup> and the field trip will be after lunch on the 3<sup>rd</sup> or 4<sup>th</sup>.
