Re: **First FP7 Call: Information and Brokerage Day – CO2 Capture and Storage for Zero Emission and Clean Coal Technologies – Poland (Warsaw or Krakow, exact venue tba) – 9 February 2007**

Dear Sir/Madam,

The European Commission, with the logistical support of the Polish National Contact Point, is organising a

European Information and Brokerage Day on “CO2 Capture and Storage for Zero Emission” and “Clean Coal Technology”, to be held in Poland (Warsaw or Krakow, tba) on 9 February, 2007.

The main objectives of the day are:

- To help applicants maximise their chances of success.
- To inform about the content of the Work Programme and the first call for proposals, to clarify doubts about the scope and content of the published topics, to explain available funding schemes and to present the evaluation criteria and process.
- To encourage potential applicants to present and discuss the objectives, scope and structure of planned proposals.
- To identify possible interactions, overlaps and/or synergies, to help partners from new Member States, SME's, etc., to join project consortia under formation.

We would be pleased if you could participate in this event. We would also appreciate it if you could distribute this announcement within your organisation and country.

The registration form is enclosed. Please, confirm your intention to participate by returning the enclosed form before 17:00 on 12 January 2007, by e-mail to

rtd-energy-zeroCO2@ec.europa.eu .

The forms allow you to indicate whether you would like to make a short presentation during the event and, if so, to attach a short abstract of it.

Please note that the number of participants is limited. Registrations will be taken on a first-come, first-served basis. For this reason, please limit the number of participants from the same company or institution.

We look forward to seeing you in Poland.

Please also note that the Polish host plans to organise a complementary event the day before our event. Further details will be published soon on http://ec.europa.eu/research/energy/index_en.htm. Please only finalise your travel arrangements only after consulting this information.

Yours faithfully,

(signé)

Wiktor RALDOW
